

SKU Barcode

Modified on: Wed, 6 Mar, 2024 at 11:49 AM

SKU Barcode

SKU Barcode feature enables the User to enter /upload the list of barcodes to be assigned to the SKU’s. These Barcodes provide a method to track and store information about SKUs from individual items to large stocks of millions in Warehousing and Order management. With the help of SKU Barcoding, we can track the movement of SKUs in/out of the warehouse.

Navigation: Masters –> SKU Management –> SKU Barcode.

There are two tabs on SKU Bar Code Create/ Edit screen -

- 1. SKU Barcode Create /Edit
- 2. SKU Barcode Import

Master > Sku Management > SKU Bar Code Create/Edit
